

# Techno Legal Projects Of PTLB

**We have been testing Techno Legal fields for more than a decade now. Techno Legal fields are areas where technology and law merge. Tele Law, E-Courts, Online Dispute Resolution (ODR), Online Skills Development, Cyber Law, Cyber Forensics, E-Agriculture, etc are some examples.**

## **Our Process Is Easy, Unique, Innovative And Effective.**

### **Unique**

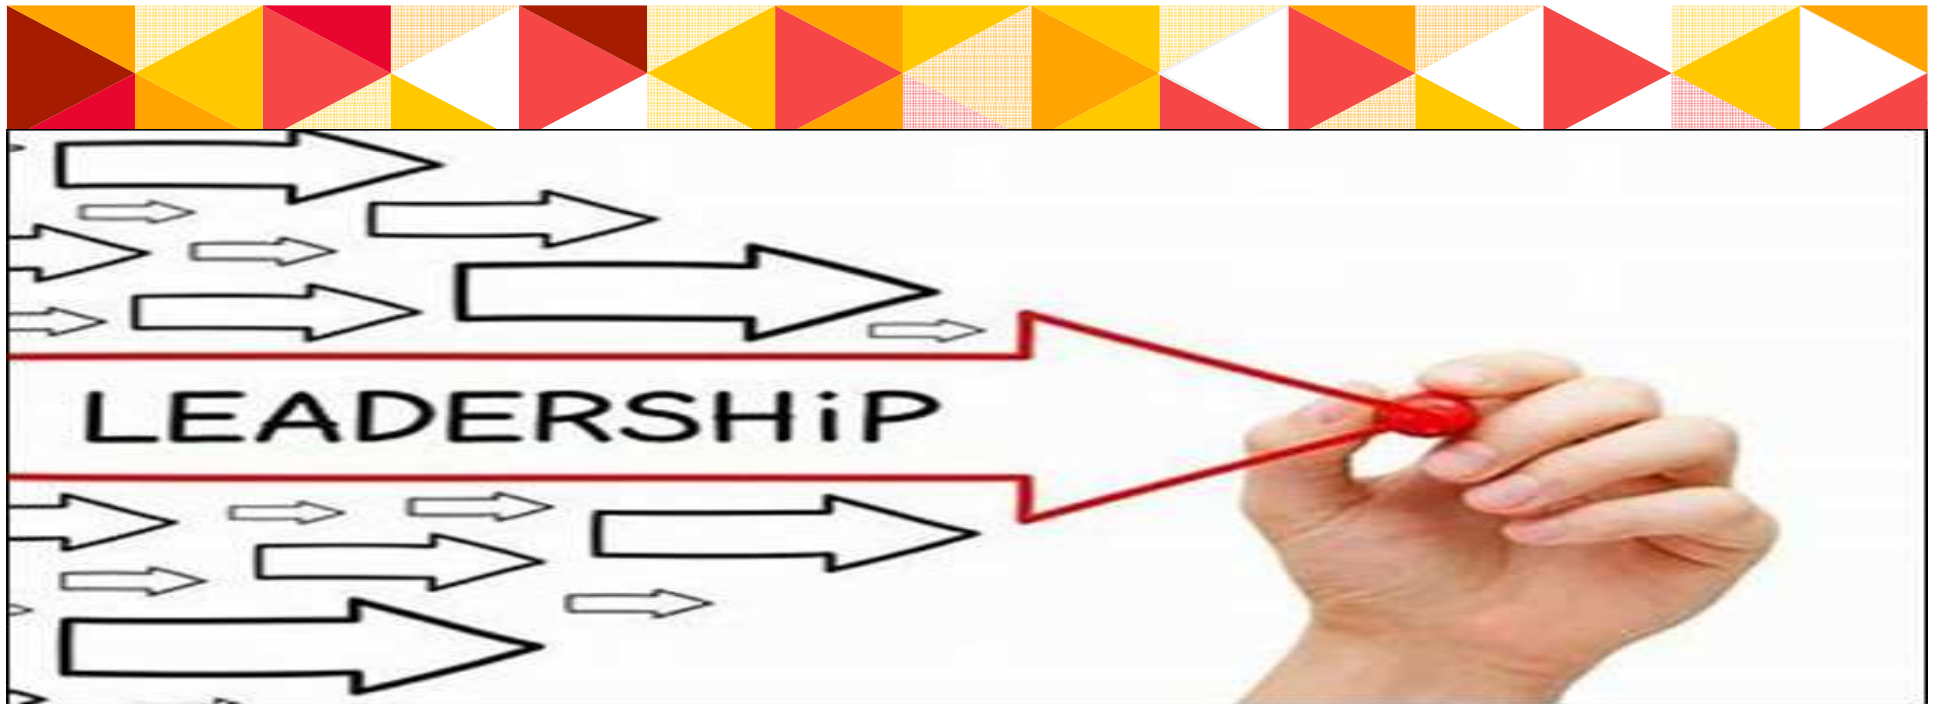

**We at PTLB have launched many unique and Minimum Viable Products (MVPs) in fields like ODR, Tele Law, Online Skills Development, etc. We have dedicated websites for these projects where stakeholders are interacting.**

### **Innovative**

**We are using information and communication technology (ICT) for our Tele Law, ODR, E-Courts and other projects. National and international stakeholders are aware of and have acknowledged these projects.**

### **Effective**

**We have been testing these Techno Legal projects for many years. We are not only ensuring online skills development and spreading public awareness about these projects but we have also launched pro bono project(s) websites so that people are comfortable with these projects.**

*Innovation and projects in Techno Legal fields are rare world over and India can establish herself as a world leader and hub for Techno Legal products and services. We at **PTLB** could help Indian Government in achieving this “Leadership Role” as we are already at post Minimum Viable Products (MVPs) stage with dedicated websites.*

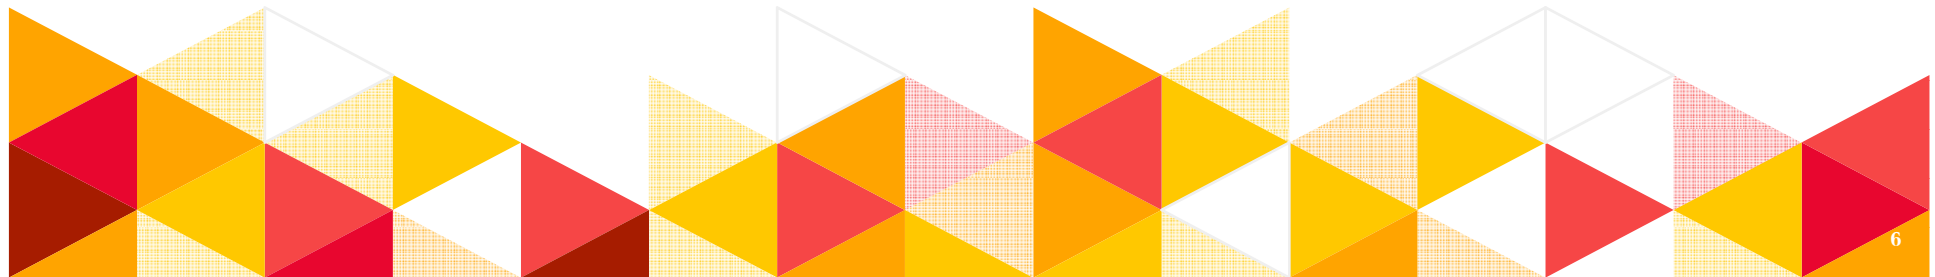

**Some Of Our Techno Legal Projects At Post MVPs Stage Are:**

- ▶ **Online Dispute Resolution (ODR) Projects,**
- ▶ **Online Skills Development Projects,**
- ▶ **Tele Law and E-Lawyering Project,**
- ▶ **E-Courts Consultancy and Development Project,**
- ▶ **Techno Legal Projects on Cyber Law, Cyber Security, Cyber Forensics, etc.**

# India As A Techno Legal Leader Of The World ★ ★ ★ ★ ★

**Techno Legal Projects of PTLB are already in an executable position. With proper handholding and funding, we can make India a leader in Techno Legal fields like ODR, Tele Law, E-Courts, Online Skills Development, Cyber Security and Cyber Forensics fields, etc. India has the right policy and technology environment to achieve this laudable objective.**

## *How Our Techno Legal Projects Are Different*

### **Exclusive Projects**

**PTLB is exclusively implementing Techno Legal Projects in India at post MVPs stage in fields of Tele Law (except 1 Govt project), E-Courts (except 1 Govt project), ODR (some non Techno Legal ODR projects are there), etc. More projects are in pipeline.**

### **World Leader**

**Even if there is any project in ODR field in any other country, we can help Indian Govt in establishing India as a world leader in ODR and Techno Legal fields. We have tested our projects for many years and we are confident about their potential and success.**

## Thanks And Regards

Thanks for going through this document and your patience.

THANKS!
